

SECTION: Administrative Policy

TITLE: Eligibility Policy Clarified

ADOPTED: Clarification of page 21 of student handbook

REVISED:

Warren County Christian School

Clarification of Sport's Eligibility

With the help of staff we now have on paper what has been the policy that affects our student athletes concerning their eligibility. Each athlete must maintain the grade average in any sports to be eligible to play ball week to week. Eligibility is as follows:

- The standards are set forth on page 21 of the student handbook.
- When grades are not maintained the student will become ineligible for the next week and will be informed on the Thursday of the present week what subjects and grades need to be improved .
- The staff will maintain running grades week to week during a marking period.
- The staff will either use weekly running totals or the end of a quarter totals to determine eligibility.
- At the beginning of a new quarter, eligibility will always be based on previous quarter average or until a new quarter average is determined by class work at the start of that present quarter.
- There are no exceptions to the above policy without the clearance of the administration.
